The Canadan Parisio Railway Company's into the limber of forgetfulness and I cannot

I sincerely hone that the Association proposed to be formed this afternoon will have a more prolonged and more useful existence remote predecessor, in fact that become a permanent institution of the place. Whatever changes may take place it will never cease to be of importance the ratepayors should have some organised means of expressing their views on public questions as they arise. The function such an Association will be not only to try to redress existing grievances but to prevent the growth of new evils.

the meeting as a matter of course.

I hear that a meeting is shortly to be held for the purpose of constituting the members of the China Association into a branch of the home organisation. Some division of opinion appears to exist as to the necessity or desirability of two associations, having many objects in common. being started, and on the face of it one would think that such a division of responsibility and effort would tend to minimise the value of both. Perhaps to form a really solid and influential of the lady who benefited by the retrospective the late holder. A very keen contest was ex- branch of the Uhina Association would be even more effectually the powers that be. There is much, however, to be said on both sides.

The recent conversations of the "Odd Vc-

lumes" was so eucoessful that many of those

who attended expressed the hope that similar evenings might be arranged for at least once a year. The Imperial Institute exhibits will, of ourse, not be available again, and shows from he stores would grow monotonous if they were often repeated; so that new features will have to be looked for if the idea of an annual conterrasione is to be carried out. As a commencement, for the next one an amalgamation might perhaps be made for the occasion with the Skotching Club, if that institution is still in A very suspicious esse was yesterday reported | existence, and if it is not no doubt the former

A good many people were, I think, surprised at the singular setion of the Hongkoug Hotel Company in closing the door opening on to Queen's Road, and the general opinion seemed appended :to be that a more ill-advised and unreasonable course could not well be conceived. The mistake peared in the Hyogo News that paper in a later | has been recognised and the door is again open much to the convenience of the public and prob ably also to the profit of the Company. An ontrance on to the principal theroughfare of a town is too good an asset for an hotel to lightly throw shareholders to prove the authenticity of their away, and in this particular case it is no doub shares. Those given to the late Mr. Johnson frequently used by people requiring refreshmen made upon it by the deaths of several highly had never been registered, and accordingly could who, if this entrance, were closed to them, would paid officers. If a similar misfortune were to not be admitted by the Court at Hongkong with. be more likely to go showhere for what they out proof. Meantime they the members of the Board:original directors to pay Mr. Johnson partly in had a full supply which they were at liberty to A petition from the washermen now using the Tail cash and partly in shares, but sentiment does use for watering their gardens and lawns or for Hang streams praying that permission be granted remains to be proved whether the informality cognised the importance of guarding against atrooms, showeth :waste and not much barm was done, but it is not easy to divine the reason of the distinction which A sad fatality is reported from Macao which was made between the Hill District and the

> In some recent notes Professer Dewar's discovery of a means of solidifying air was referre the discovery, but who knows that in course of time it may not become of practical importance, especially to the dwellers in tropical lands i The most serious svils with which Europeans have to contend in the tropics are malaria and high temperature. This subject is discussed in a paper which Professer Rever, of Vienna, has contributed to the Archiv fur Hygiene With regard to high temperature. Professor Rever holds that its had effects might be greatly mitigated by the supply of good air to private of the public laundries. Such being the case, instead dwellings from central pooling stations, and that of letting the laundries at fixed rentels it seems to such stations could be established at a very small | me that it would be both a fair and good plan to incost. How he proposes that the air should be cooled at the central stations I do not know, as of letting be adopted annually. Those now oc upled I have not seen a full reprint of the article, but recollect that some years ago there was considerable discussion in India on the feasibility of distributing cold air by inducing a downward current from an upper strate of the atmosphere by means of high towers to be erected for that purpose. If ever encoses is to be schieved in the distribution of coolsir, however, i seems more likely to be found in the direction of Professor Dewar's discovery. If any of the present residents of the Colony could revisit it fifty or a hundred yours hence they might perhaps find an air freezing Company included in the list of local enterprises, if indeed by that time Board. the Colony has not "gone bust" altogether, as it seems not unlikely to do if it continues much longer on the down grade.

In the cities of Europe and America the Insurance Companies usually build themselves handsome piles of offices, of which they occupy a few rooms for their own business and off the remainder. They thus secure for themselves at one and the same time an air of importance and solidity. a capital advertisement and a profitable investment for their surplus funds. Why should the Companies having their head offices in Hongkong not do the same? The statement that only one lot on the Praya Reclamation has as yet been applied for, and that at the low rate of 33 a foot, sug-All the participators in the disturbances have gests the idea that this would be a favourable time to enter on such an enterprise, as eligible sites could be get at low rates, and contractors charges for building are also low at present, I

> Mr. Uchiyama Rossetsu, the gentleman who has just been sent to prison at Kobe for an alleged libel, probably wishes now that he had remained a citizen of the great Republic and continued to enjoy the protection of the stars be sufficient to deter any others who might be thinking of following his example from doing so.

This sesson we will miss one of the customary delicacies in the way of fruit from our table. The liches crop has failed entirely, I am told, in consequence of the January frost, and there will be for if any for sale.

HONGRONG SANITARY BOARD. A meeting of the Sanitary Board was held restorday. The members present were the Hon

-" That the recommendation contained in paragraph 12 of Mr. Chadwick's letter dated the 8th July, 1890, viz., that the Board should, if requosted, be in a position to undertake the construction of house-drains at the cost of the owners The postponement of yesterday's meeting of the houses requesting them to be so re-drained. until to day on account of the tennis match must receive early attention with a view to giving not be taken as indicating that the object of the practical offeet thereto." Referring to the intermeeting was considered of secondary importance. ference with the drainage works now being One day serves as well as another for the meet- carried out near to the Hongkong Dispensary. he day serves as well as marked as the large serves as well as marked and serves as well as marked as the large serves as well as the large serves as well as marked as the large serves as well as the large serves as the large serves as well as the large serves as the large serves as well as the large serves as the large serves as well as the large serves as the large serves as well as the large serves a the Cricket Ground would have dropped in to more economically and with greater promptitude in a large proportion of cases than at present. The owners would not be subjected to annoysnoo as they are now, and the architects would save a great deal of time. Only vesterday he had been informed that an architect had been ton times to look at certain drains, the reason why architects had to pay frequent visits being that contractors, knowing little or nothing of the work and doing it badly at first had to

The DIRECTOR OF PUBLIC WORKS said the subject was one well worthy of careful consideration. He would second the motion if Mr clause is a coincidence, but it does not afford favour of Pinckney. Meaden, however, won the sibly carry more weight, and be able to infinence effect that a committee be appointed to consider what steps should-be taken to give effect to the

Mr. FRANCIS did not think the Board had the machinery at its disposal for carrying out the work, and was of opinion that the work should be undertaken by the Public Works Department. After some further discussion, it was agreed, on the suggestion of the President, to appoint Mesers. Cooper. Francis, and Humphreys as a committee to consider how the recommendation of Mr. Chadwick could be carried out, and if it could in what manner.

SMALL-POX IN THE COLONY. The mortality returns for the week ending 29th April showed a death rate of 23 against 22 for the corresponding week of last year, and for the week ending 6th May 17.8 against 21.5 The only point of interest was the appearance of this mortality of two deaths from small-pox, which makes a total of 91 from January 1st. In this connection the Sanitary Superintendent made the follo ing report on a recent case :-

On Saturday I received information that a case small-per had occurred in the ground floor of 7, Wai Tack Lane, and that the patient had been admitted into the Tung Wan Hospital. When the Inspector. went to disinfect the premises he found snother man resevering from small-pex, and subsequently a third man on whom the eruption had been out some ten days. The Colonial Surgeon was good enough to see these men and give certificates as to the length of time the eruption had been clearly and unmistakably visible. The owner of the promises was at once prosecuted for not reporting the cases as soon as he hacame aware of their existence, he was convicted and a penalty of \$30 inflicted. SURVEYOR'S REPORT.

The Surveyor's reports on the condition ionse drains of 150 to 157. Praya West, and 69. Wyndham Street had the following minnies By Mr. J. J. Francis-I would like to ask again on

whose complaint or by what authority Mr. Crook inspected these drains. I do not think he can do this of his own motion. By the Director of Public Works -1 presume the dmins were opened for inspection under the instruc-tions of the Sanitary Superintendent. A discussion was initiated by Mr. Francis who contended that no consideration should

given to complaints which were not stated in writing by the parties complaining. Dr. CANTLIE seconded a motion by Mr. Mr. HUMPHREYS had no objection to the motion, but considered that to publish the names

found not to be faulty. The motion was rejected by 5 to 2. THE WASHERMEN'S PETITION The following petition was received by the

might subject the parties to personal annoyance,

especially in cases where the drains might be

run no doubt the calculations of the ac- not weigh with a Bankruptcy Court, and it now any other purpose. Probably most of them re- to them to put up matcheds on the hill near the That petitioners' workmen have to remain on the hili-side the whole day in all weathers, so that it is necessary they should have matshods as a place to protect them from the san and the rain. For erecting and using such matcheds some of them were pro- ter than they have during the past one. scouted, convicted, and fined \$10 each. As they carry on a mean business they had difficulty in pay-

> That petitioners pray you will issue them a licence for building matcheds on the hill. Upon this Mr. McCallum reported as follows;-The attached petition is really a request to be a lowed to squat on Crown land and prect thereon matched dwellings, but, by implication, it is also a request to use public land for trade purposes. It seems to me that it only concerns the Board in so far as the granting of the prayer of the potition would mean the erection of dwellings in contravention of the provisions of the Health Ordinance and also the serious pollation of public streams and thereby giving rise to pronounced public nuisances.

It has of course an indirect bearing on the letting vite tenders for the laundries which are vacant and let them to the best tenderers and that this system were let on the distinct understanding that the rentale would not be raised so long as the original tenants cared to continue in occupation. Each member had a copy of the Board's papers re lannaries sent to him November last, but for easy reference I attach those

which appear to me to have a direct brazing on the present phase of the laundry question. Press of other work has prevented me from attend ing to this matter since I received the petition from the Director of Public Works.

To the circulating cover of the documents the following minutes were attached :-By Mr. N. J. Ede-Lagree with the Chairman that the matter should be theroughly considered by the

By Mr. J. J. Francis -I cannot understand why this petition was received or entertained. It should etatement that their petition should be sent to the Colonial Secretary. The Board has no power whatever in the matter of the petition. If the Government before granting the petition asks for advice on sunitary grounds, well and good. It will then be time to consider the subject. By the Acting Captain Superintendent of Police I agree with Mr. Francis.

By the Director of Public Works—I am of apinion that the polition should be returned to the petitioners, who should be informed that the Board have no power to grant licences for the occupation of Crown land. The point reised by the Secretary as to the letting of the laundries deserves consideration. The Parament said he quite agreed with My Francis, but he thought this would be a convenient way of raising the whole question of the public laundries, which he supposed the Board would have to consider sooner or later.

Mr. FRANCIS suggested that a notice be put on the paper for next meeting. structed to inform the petitioners that the Sani- which it softens its coccon and enables itself to Dynaty, which in its turn in 1517 gave place to tary Board was not the proper body to consider emerge: Caustic potash is a powerful cautery. a Turkish Pashalic.

DAMAGE TEROUGH DISINFECTING. A claim having been received for damage alleged to have been received to clothes during and stripes instead of seeking naturalisation as the process of disinfection the Sanitary Supera Japaneso subject. Probably his experience will intendent reported as follows on the circumstances of the case :---Attached correspondence submitted. The particu-

> 1 .- On the 11th March it was notified to me that Mr. Burnio, of the Lee Ynen Sugar Refinery, was spifering from small-pox and had been admitted to the Hygolan flospital.
>
> 2.—The room occupied by him was fumigated, etc., in the usual manner and the clothing therein taken

to the Steam Disinfecting Station. 8.—When the elething was returned to the Refinery treatment with regulated diet.

Mr. Plage, who appeared to be acting as Mr. Burnie's friend, pointed out to the inspector that he was of opinion the clothing had been damaged. The inspector distinguished by two closely

and purification of the said premises."

The President suggested that as the members held conflicting opinions and their ideas with regard to the process of disinfection were g-rms of some diseases pass unharmed through cortainly somewhat bury the matter should be the digestive system of flies. A German allowed to stand over till next meeting. The suggestion was adopted, and the Board then adjourned for a fortnight.

THE CHINA BORNEO COMPANY. LIMITED.

The fourth ordinary yearly meeting of the shareholders of this Company was held yesterday at the office, No. 6, Ice House Lane, Mr. t. Layton occupied the chair and there were also present Messrs. A. G. Stokes, A. B. Johnson, A G. Wood, A. G. Gordon, J. Barton, J. Maclebote, W. Parlane, J. S. Perry, E. S. Whealler, J. B. Gomes, and J. Wheeley (Agent.) The natice convening the meeting having been

The CHAIRMAN said—Gentlemen, the repor ind accounts for 1892 have been in your hands for some days and we will with your permission take them as read. You will notice that as result of working on the new conditions agreed to at the last annual meeting we have come out with a loss of \$2.146.62 on the working account but I would mention that at the time of the ra-organization of the Company's affairs there in India alone. In Egypt there are about was \$700 odd at debit of this account and 6.000,000 acres, and in Europe about 5,000,000. during the last 9 months of the year we have The United States has but just begun the work been able to reduce it by some \$5,000. Affairs in Borneo do not seem to improve : in fact I should say they were rather worse and we have taken steps to further reduce our expenses in Sandakan We have been unable to realize any of our properties except the "Sandakan," but we have tomatoes are refused to its patients. There is done away with the liability on the Tobacco no evidence that tomatoes predispose to or excite Land (20,000 acres) by giving up two-thirds of caucer formation, or that they are in any way the concession and taking 7.000 sores fully paid injurious to cancer patients or other persons. and when possible we shall realize this property gost of cancelling the agreements of the European employes at the mill and finding them with passage home was \$2,000. Abrahamson.-Mr. Abrahamson brought an action against the Company for wrongful dismissal; thecase was brought in the Borneo Courts and i. still going on. I undetetand Mr. Abrahamson has returned to Europe Directors.-We have to regret the death of Mr. Davies. Mr. Stokes-resigued on leaving the Colony and the present directors consist of Mr. Dalrymple, Mr. Whealler, and myself, who

are willing to be re-lected. The business of the l Company here has been managed by M. Wheeley. The wills are over 113 feet high, and in many who has given great attention to our interests. I shall be glad to answer any question. There being no questions the CHAIRMA and accounts.

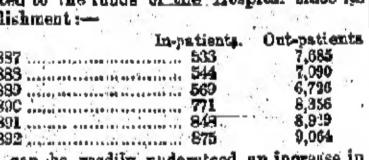

Mr. A. G STOKES second. Carried unanimously: The election of auditors was the next business Mr. A. G. Gordon proposed the re-election of Messre. Whetller and Layton. Mr. PARLANE seconded.

Carried unanimously. sars. Handerson and Lyall as auditors. Mr. J. B. Gomes seconded. Carried ppapimonsly.

The CHAIRMAN-That, gentlemen, concludes the business of the mesting. I am obliged to

ALIGE MEMORIAL HOSPITAL.

The following circular has been issued connection with the Alice Memorial Hospital:-The Finance Committee of the Alice Memorish Haspital haive great pleasure in inviting the attention of all those interested in the work the institution to the Annual Report for the year 1892, which reveals a steady increase in the number of patients who come under treatment in the Hospital. The following statistics, which were brought to the notice of the Finance Committee at their annual meeting, may be of interest to those who have so generously contributed to the funds of the Hospital since its establishment:-

As can be readily nuderateed, an increase in patients involves an increased outlay, and as it is he had studied theology. In preaching to the certain that the Nothersole Hospital, which is an people, therefore, he was not without some knowextension of the Alice Memorial Hospital, will ledge of his subject. There was probably a want add to the expenditure, funds are more than ever of tactabout Hassau, an inability to govern men necessary. The total amount of donations last by taking them in the right way -a defect time year was slightly larger than in former years would have remedied in one who was really owing to the subscriptions from the Chinese wise and earnest of purpose. His Ameers community being very considerably in excess of were too strong for him. The wretched any previous year, but unless the subscriptious, Mameluke spirit of pride and ambition and generally are not only maintained but augment- love of nower was stronger than they, and noed, it will not be possible to carry on the work so thing was allowed to stand in the way of efficiently as every well-wisher of the Hospital their advancement. The immediate cause of It is hoped, therefore that contributions this men better than he could rule them, had placed year will be such as to remove all fear of the about himself Egyptian and Arab officials to

funds not being sufficient to meet all demands. J. H. STEWART-LOOKHART,

SCIENTIFIC MISCELLANY.

The odd fact that the forked-tail moth (Dicra-

nura vinula) is a shemist of considerable capacity was shown at a recent meeting of the London Entomological Society. It was previously known that its larvae, like ants, secrete formic High-Marshal Yelboghas, and basely murdered. new and enrorising discovery that the mouth of Ruberite Mameluke Dynasty came to an end, to acid. To this Mr. Oswald Latter added the capable of destroying the human skin, and its secretion by any animal is a unique revelation.

The notion that a fish diet contributes to the development of leprosy is upheld by the President of the London Medical Society, who, however, does not regard this diet as capable of starting the disease in a healthy person. He has exhibited a patient who is recovering from leprosy through treatment with small doses of arsenio and ab-tinence from fish. 'The peopliar's patches have disappeared from this patient, but the hands and feet are insensitive to heat and cold and to pain. It is stated that mild cases usually recover in the English climate under

America's two great celebration years are distinguished by two closely related schieve-

An "incombustible snow," for decorating Christmas trees, etc., is being made in Germany from asbestos-fibre and mica.

In the bogs of Denmark and neighbouring parts of Sweden and of the Baltic coast of Garmany, have been found a number of "lurs," curious musical instruments of the bronze age. Most of these-about a score-are now in the National Museum of Copenhagen. Several have been process of disinfection. I imagine it would be very difficult if not impossible to properly disinfect clothing without discolouring it except it were of the very best materials and of the fastest colours. The introduction is a natural substitute of the materials and of the fastest colours. The introduction is a natural substitute of the materials and of the fastest colours. spectors say there was no other damage to the clothing 8,000 years ago. The lar is six or seven feet long, and resembles a regularly tapering aniplaints of a similar nature. No damage should ensue mal's born twisted into a double curve, the butt to the glotbing by the steam disinfector, always ex- or farther end being furnished with an ornacepting kid or fur material. Other clothing should mental collar. The material is a kind of branze, which is only about one-twentieth of an inch thick, and was cast in small sections and or else is not worked with sofficient care. Is the afterward joined together. The instruments person working it a skilled paraunt. The entire opera- seem to have been used in pairs, ourved in tion is for the public barefit solely and is done who- opposite directions, and, when being blown, to

When any person suffer- made calculations to show whether power can ing from any infectious disease has been removed, better by transmitted by shufting and belting or from any premises or has died, the Sanitary by electricity. His results prove that electric Superintendent shall, with the assent of the oc- transmission supplies to the machines at least 70 cupiers of the infected premises, take such steps per cent, of the indicate horse-power, while with as he may deem necessary for the distatection the shafting no more than 60 to 63 per cent, is made available.

It has been known for several years that the bacteriologist has now added Asiatio cholera to the lit of diseases, finding that the cholers, bacteria may survive 72 hours, or even longer, in the intestines of flies, while it is probable that under some conditions they may multiply there.

Two sides of the face are never slike. A German biologist say that the eyes are out of line in two persons out of five; one eye is stronger than the other in given out of ten; and the right ear is generally higher than the left.

In the process new being worked by M. Lambotte, of Br. ssels, tin is recovered in the form of chloride from clippings of tinned from. Chlorina gas is mixed with air, and the mixture nesses. through a spiral surfounding a cylindrical furoace, becoming warmed by the heat of the chemical action within, and enters the formace from below. The tin of the cli pings in the furnace. is attacked, and the stannic chloride volatilizes and is collected upon moistened condensing furfaces. The iron, freed from its tin and not acted upon by the chlorine, is again used.

A new work by Mr. H. M. Wilson states that by irrigation 25,000,000 acres are made fruitful of improving its waste area, but has already about 4,000,000 acres of irrigated lands.

The Cancer Hospital, of London, has found it necessary to correct a widespread belief that

A new driving bolt has been made in France v parchmenting the leather instead of tanning The belt does not stretch, and is more durble than tanned belts.

THE MOSQUE OF HASSAN.

CHARLES W. WOOD, F.R.G.S., IN THE

The mosque was commented in the year 757 f the Her ra-1356 of our own en. It took three years to build, at a cost of £500 a day. parts 25 feet deep. This mosque has always been a sort of "City of Refuge." Leaders of rehellions have here met in ascret and formed then formally moved the adoption of the report their plans. Here the Arabs took shelter during their insurrection in Caire on October 21, 1799. In the walls are still shown some of th can on balls lodged there by Napoleon when he invaded Egypt. To the south east of the building we entered the sanctuary, the largest of the four square recesses opening to the central court. This was the Holy of Holies. Here at the end was the Mibrab or prayer-niche, Mr. A. G. STOKES proposed the re-election of where the faithful may pray with their faces grued towards Mecol. The walls are of manycoloured marbles, and there are four slander colamns, ornamented with marble and porphyry legorations of somewhat debased style Near these was the pulpit. The realing-disk was sunyou for your attendance and I hope that furing ported by three pilasters and eight small columns, the courent year things may go on a little bet- roughly executed but effective in design. Over all our torch-bearers threw a waird light. Nothing was wanting but a growd of kneeling worshipp-ra to perfect the scene. Above, a large broppe candelabrum was hung, of remarkable workmanship. Two rows of vases in coloured glass were suspended from the walls, with the name of Hassan inscribed upon each Above them was a frieze ornamented with light arabesques, upon which, encircling the whole sanctuary, was a prominent inscription n Cuffe characters. The whole decoration, so far as could be seen in this uncertain light, was gorgeous and splendid. Small lamps of ourious workmanship and design were suspended from the great orner-beams. The sanctuary was espagially designed for Sultan Hassan himself. lere he would retire for solitary prayer; and from the pulpit he would opposionally preach to an assembled orowd, or give forth public instructions. I'be people were not admitted with-

> Hassan, like some of his predecessors, had not enjoyed an uninterrupted reign. More than once he was deposed by his jealous and ambitions Ameers; and during these periods of deposition. revolt was that Hassan, who perhaps could judge the exclusion of the Mameluke chiefs. This was too much for their vanity, and their vexed spirit Chairman of Finance Committee rose in rebellion. Massan ought to have auticipated danger and treachery. It may be that he did so, but considered his Egyptians and Araba sufficiently powerful to protect him; forgetting the strength and danger of an unseen foe, which, like a lie that is half a truth, is always the hardest to fight. The Mamelukes suddenly rose in revolt with irresistible force. Unprepared Hassan fled from his enemies, was caught by his This was in the year 1361, and in 1382 the tie succeeded by the Circassian Mamalake

in the sanctuary, but stood in the large open

space without.

WITH THE PUSTI AND MANDARIN An Anglo-Chinese Dictionary, published at the the various Customs Tariffs, Trade Regulations, For comprehensiveness and practical service nese Festivals and Observances, Tables of Money this Work stands unrivalled. All the new Weights and Measures, and other Commercial words which the Chinese have of latey ears been Information, amongst which are:compelled to coin to express the numerous objoots in machinery, photography, telegraphy, and inscionce generally, which the rapid advance of foreign relations has imposed upon them, are here given in extense. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti prenunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of attained, and dispensing with those vast margins and vacant spaces which have heretofore charac-To illustrate the vast scope of the work the following facts are submitted for consideration:-

Chalmers Vocabulary contains about 16,000 Chinese characters, and Medburst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto pub-

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who the work will be found indispensable to all and condensed in every possible manner, con-Europeans residing in China, and to the natives | tains every year more pages. themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. | the cheapest work of the kind anywhere published. To parties resident in England and interested and although enlarged and improved in every [817] in Chine it cannot but be invaluable occasion-

It comprises upwards of two thousand large 4 Vols IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies."

NOW BEADY. TRECTORY CHRONICLE AND CHINA, JAPAN, STRAITS, &c., &c., 1893.

With which is incorporated THE ORINA DIRECTORY. This is the THIRTY-FIRST ANNUAL ISSUE. and will be found, as usual, to show an advance on preceding years both in fullness and necuracy of information.

The DIRECTORY covers the whole of the ports and cities of the Far East, from Penang to Vladivostock, in which Europeans reside. Not only is the Directory as full and complete in each case as it can be made, but each Colony, Port, or Settlement is prefaced by a DESCRII TION, carefully revised each year, some of which will serve as accurate Guides for the Tourist, giving every detail in connection with the places, their History, Topography, &c., &c.
The Information afforded in these Descriptions alone would suffice to fill an ordinary volume, Adolf Von André, Esq. consisting of over Erghty highly interesting Egbert Iveson, Esq. try and Port.
